BEYOND THE BEHAVIOR: UNDERSTANDING WHAT STUDENTS NEED

JANUARY 26, 2027

School Teams will explore function-based thinking and engage in problem-solving to develop layered supports that address student needs and strengthen behavior support across the MTSS continuum.

Target Audience:

General and special education teachers, administrators, and school-based support teams interested in understanding student behavior and strengthening supports across all tiers

What teams can expect:

- Recognize how understanding the function of behavior informs support across tiers.
- Identify proactive and individualized strategies aligned with student needs and the function of behavior.
- Connect prevention, skill instruction, and reinforcement to improved student outcomes.

ESU 8 9am-3pm
